TARGET MARKET

- Federal, state, and municipal agencies
- Regional transit authorities
- Large-scale infrastructure programs
- Prime contractors and technology providers requiring transit expertise or compliance support

COMPANY OVERVIEW

Collins OmniTransit Global is a transportation and transit consulting firm specializing in strategic planning, program management, systems integration, and operational support. We partner with federal, state, and municipal agencies to modernize mobility systems, enhance service reliability, and deploy innovative technologies. By combining compliance expertise with advanced analytics and tailored solutions, we deliver measurable improvements that optimize transit operations and reduce costs

PAST PERFORMANCE

- Transit planning and operational assessments for major metropolitan agencies
- Technology integration projects to modernize fare collection and passenger information systems
- Federal contract support in program management, compliance audits, and technical consulting
- Representative clients include:
 - U.S. Department of Transportation (USDOT) programs**
 - Metropolitan Transit Authority projects**
 - State Departments of Transportation and regional transit districts**

CORE COMPETENCIES

- Transit Consulting:** Strategic mobility planning, feasibility studies, and modernization initiatives
- Program & Project Management:** Oversight, risk management, compliance, and technical consulting
- Systems Integration:** Implementation of multimodal platforms, fare collection, and passenger systems
- Mobility-as-a-Service (MaaS):** Integration of private-sector innovations with public transit frameworks
- Data Analytics & Performance Modeling:** Optimization of operations and cost efficiency through advanced modeling
- Federal Compliance Support:** Knowledge of procurement, funding, and regulatory frameworks

DIFFERENTIATORS

- Tailored Solutions, Not One-Size-Fits-All:** Customized strategies for diverse operational and regulatory environments
- Proprietary Tools & Frameworks:** Advanced analytics and program management methods built for transit systems
- Public-Private Expertise:** Blending government compliance with private-sector innovation for faster, lower-risk delivery
- Rigorous Quality Assurance:** Structured milestones, transparent reporting, and independent deliverable reviews
- On-site & Remote Program Support:** Consistent service delivery regardless of the location.
- Proven Customer Satisfaction:** Consistent on-time delivery, measurable outcomes, and repeat engagements

“Collins OmniTransit Global helps government and transit agencies modernize transportation systems through tailored strategies, proprietary tools, and proven program management expertise—delivering measurable performance improvements on time and within budget.”
